EXPERIENCE

Saab, Luleå — *Software Engineer*

MAY 2024 - PRESENT

Oskar is part of a team that is integrating a new data link for one of their customers. He is responsible for the development and integration of certain subsystems, including direct contact with the end customer during integration events.

Saab, Luleå — *Software Developer*

DECEMBER 2021 - APRIL 2024

Oskar was part of a team that integrated a new data link for one of their customers. He was responsible for the development and integration of certain subsystems, including direct contact with the end customer during integration events. He has also trained and acted as a mentor for new members of the team.

Xolaris, Luleå — *Software Developer*

JANUARY 2020 - NOVEMBER 2021

Oskar has been part of a team developing a new product that acts as a "middleware" between external APIs and connected systems. He has also been part of a team that is further developing their product Eunomia. In his role as a software developer he has implemented several major features and changes in the complex products.
